

# Welcome to the E1 Open House!

Mx. Kenna (Eagle's Nest)  
Ms. Candace (Eagle's Nest)  
Ms. Kiara (Eagle's Nest)

Ms. Kelsey (Trout Creek)  
Ms. Sharmeen (Trout Creek)  
Ms. Anastasia (Trout Creek)

LEGACY OF  
*Dr. Josie R. Johnson*  
MONTESSORI

“If our early ancestors could survive what they had to survive, then surely I can continue to hold my head up and live in the tradition of my ancestors, and say to my children, 'Yes, you can be a part of this struggle.'”

—Dr. Josie R. Johnson

# This evening...

## DISTANCE LEARNING

Our plan and how  
we can support  
your scholar &  
family.

## CURRICULUM

All the good stuff  
that your scholar  
will be learning  
this year.

## Q & A HOPES, DREAMS...

We want to hear  
from you!

ZOOM DAY

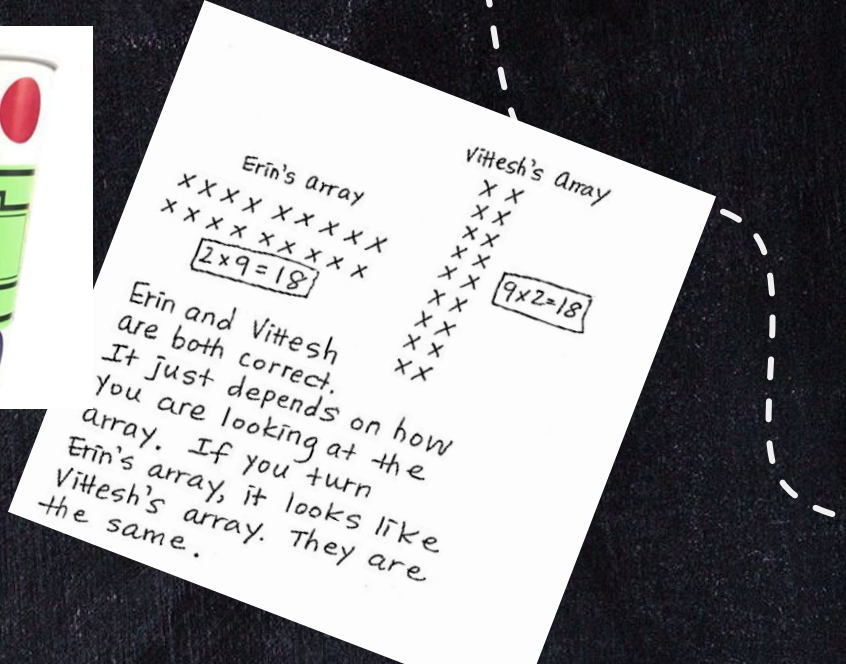

The student council holds a meeting in Mr. Chang's classroom. They arrange the chairs in 3 rows of 5. How many chairs are used in all? Use the RDW process.

XXXXX  
XXXXX  
XXXXX

3 rows  
5 in each row  
 $3 \times 5 = 15$

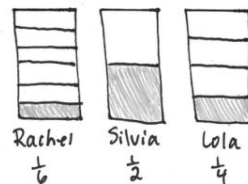

There are 15 chairs in Mr. Chang's room.

### Word Problem (6 min)

Rachel, Silvia, and Lola each received the same homework assignment and only completed part of it. Rachel completed  $\frac{1}{6}$  of her homework, Silvia completed  $\frac{1}{2}$  of her homework, and Lola completed  $\frac{1}{4}$  of her homework. Write the amount of homework each girl completed from least to greatest. Draw a picture to prove your answer.

$$\frac{1}{6} < \frac{1}{4} < \frac{1}{2}$$

Rachel completed the least, Lola was next, and Silvia completed the most out of the girls.
